

Blue & Green Certificate of conformity

Blue & Green AB is one of Scandinavia's leading chemistry companies producing cleaning agents for train-, bus- and car-wash, facade cleaning, cleaning agents for the graphic industry/ other industries and anti- graffiti/ graffiti removal products. We have more than 50 years' experience and we help our customers, smaller or bigger, with both larger product concepts and single products.

Blue & Green AB is ISO 9001/ 14001 certified and has sales representatives in the whole of Scandinavia and retailers in 17 European countries.

Our largest focus lies in reducing any negative impact on the environment and people's health that chemicals can have. Therefore, we only use biodegradable substances in our products and we are continuously developing products with new chemical technology. We also produce our products, mostly in concentrate, to avoid transportation of water.

Most part of our products is water based and some of them are labeled with Svanen and the Nordic Green Point. A lot of our products are also registered and listed in Naturskyddsföreningens Kemikaliesvepet, Bra miljöval, Byggvarubedömningen, Sunda Hus and BASTA.

2019 we are also becoming the first company to register a graffiti protection product in Svanen.

Our company policy is based on that we will only sell products that do not harm neither living organisms nor the environment, as far as possible.

For that reason, our products do not contain any substances listed in any of ECHAS lists of unwanted substances or any other environmental dangerous substances.

We hereby confirm that Blue & Green AB is accomplishing all required legislations/ standards/ directives, according to all European and Swedish laws, REACH (CE) n° 1907/2006 legislation and CLP (CE) n° 1272/2008 legislations, including the specific legal requirements for each country, our products is sold to.
